Sabari Nathan C

Head of IT & Digital Transformation | Technology Strategy · Enterprise Systems · Cybersecurity & Governance · AI Adoption
Chennai, India | +91 97442 30986 | sabarinathan36@gmail.com | linkedin.com/in/sabarinathan-chelladurai | sabarinathan.co.in

PROFILE

IT and digital transformation leader with 16+ years across enterprise infrastructure, managed IT services, cybersecurity governance and business technology. Currently Head of IT & Digital Transformation at Navins, shaping the IT strategy and prioritising enterprise application, process digitisation, cloud cost and security initiatives with the business. Previously ran multi-site IT service delivery covering 25,000+ assets, 25+ locations and a 60+ engineer team at CMS Computers, where centralised monitoring and automated escalation cut average resolution time by 40%. At Trio Techdesign, introduced an on-premises AI knowledge platform, an enterprise learning system and DC/DR modernisation. Known for bringing structure to growing organisations: clear governance, accountable vendors, measurable service levels and practical use of automation and AI. ISO 27001 Lead Auditor, ITIL 4 and multi-cloud certified; MBA in Information Systems Management.

AREAS OF EXPERTISE

Strategy & Transformation: IT strategy and roadmaps, digital transformation, business process digitisation, technology prioritisation, change leadership

Enterprise Applications: ERP-linked process improvement, ServiceNow ITSM, Microsoft 365 and Power Platform, LMS, management reporting and dashboards

AI & Automation: Local LLM platforms, retrieval-augmented generation (RAG) design, AI-assisted support, workflow automation, knowledge management

Infrastructure & Cloud: Hybrid cloud (AWS, Azure, Google Cloud), DC/DR, virtualisation, enterprise networking, monitoring and observability

Cybersecurity & Risk: ISO 27001 controls and audit, IT policy, identity and access management, endpoint security, business continuity

Governance & Commercials: ITIL 4 service management, IT budgeting, procurement, vendor and contract management, SLA/OLA governance

PROFESSIONAL EXPERIENCE

Head of IT & Digital Transformation Aug 2026 – Present
Navins

- Lead the IT and digital transformation agenda; work with business leaders to set the IT roadmap and prioritise technology investment against operational and revenue goals.
- Driving improvement of enterprise applications and ERP-linked business processes, starting with a review of manual workflows suitable for digitisation.
- Building a cloud cost-optimisation plan and strengthening the cybersecurity baseline and IT governance model.
- Building NRPL, an internal daily revenue-performance dashboard (Python, Streamlit, MySQL) supporting the FY2026–27 revenue acceleration programme; user onboarding in progress. Assessing AI-enabled reporting use cases for management.

Assistant General Manager – IT Apr 2025 – Jun 2026
Trio Techdesign Private Limited · Chennai

- Headed the IT function for a 200+ user engineering organisation across multiple locations, owning IT service strategy, governance, budgets and vendors and reporting to senior leadership.
- **Designed and deployed YantraAI**, an on-premises AI knowledge platform (Open WebUI, LM Studio, local LLMs, Active Directory sign-in) that kept company data in-house; RAG-based knowledge retrieval was the next phase on the roadmap.
- Implemented a Moodle LMS for employee training, online assessments and structured skill development.
- Led DC/DR modernisation across virtualisation, storage optimisation, backup governance and disaster-recovery readiness; modernised monitoring with Nagios, Prometheus and Grafana.
- Wrote the company IT policy (including network/Wi-Fi and BYOD) and set up SLA/OLA, asset lifecycle and ITIL-aligned processes; introduced Power Platform workflows to automate routine requests.
- Owned IT capital and operating budgets, procurement and technology refresh planning; managed service providers and support contracts for quality and cost.

Manager – IT (promoted from Assistant Manager – IT) Jan 2019 – Mar 2025
CMS Computers India Pvt. Ltd. · Chennai

- Led 24x7 IT service delivery across 25+ distributed locations covering 25,000+ assets and 5,000+ users, with a 60+ engineer team spanning service desk, infrastructure and field support.

- **Cut average resolution time by 40%** by deploying centralised monitoring (Zabbix, Nagios, Grafana) with proactive alerting and automated escalation.
- Ran ServiceNow for incident, change, problem and asset management, improving ticket workflows and management reporting.
- Governed the IT asset management programme for 25,000+ assets, covering hardware, software licensing and audit readiness; managed endpoint imaging, patching and software deployment through Microsoft Intune.
- Managed ISPs, hardware OEMs and third-party support vendors; negotiated SLAs and coordinated fault resolution across branch sites.
- Standardised and automated user onboarding and offboarding to give consistent, auditable access control across locations.

IT Incharge Aug 2016 – Jan 2019
Tata Consultancy Services

- Owned site IT operations, user support and enterprise application management as single point of contact; led a 15-engineer team across incident, change and asset management.
- **Reduced infrastructure downtime by 25%** through proactive monitoring, structured change management and tighter vendor coordination; introduced shift handover and an escalation matrix.

Senior Service Engineer Jun 2010 – Jul 2016
ROHLX Technologies

- Supported 500+ users across systems, networks and enterprise applications for enterprise clients; led hardware and software deployments and multi-site vendor coordination.

INDEPENDENT WORK

- **InfraLens AI** (self-initiated prototype): infrastructure assessment tool that analyses asset inventories, asset age and data quality, scores support risk and estimates AMC costs, with a local-LLM assistant for querying the data. Python, Streamlit, Ollama, Llama 3.

EDUCATION

MBA, Information Systems Management · Manipal University Jaipur · 2023 – 2025
B.E., Computer Science & Engineering · Anna University · 2006 – 2010

CERTIFICATIONS

ISO/IEC 27001:2022 Lead Auditor · ITIL 4 Foundation · AWS Certified Solutions Architect – Associate · Microsoft Certified: Azure Administrator · Google Cloud Associate · Cisco CCNA · Red Hat (RHEL) · CISM (in progress)

TECHNOLOGY

Platforms: ServiceNow, IBM Control Desk, Microsoft 365, Power Platform, Intune, Active Directory, Moodle
Cloud & Infrastructure: AWS, Azure, Google Cloud, VMware, Windows Server, RHEL/AlmaLinux, DC/DR
Network & Security: Cisco, Juniper, UniFi, SD-WAN/MPLS, firewalls, VPN, Microsoft Defender, SIEM, Graylog
Monitoring, Data & AI: Zabbix, Nagios, Prometheus, Grafana, Python, Streamlit, MySQL, Open WebUI, LM Studio, Ollama
